HOW TO . . .

Join . . .

(879-6833)

Most people join AANR through a club in their area. When planning a visit for the first time, it is always a good idea to call ahead, ask questions about the facility, and make an appointment. To find a club near you, visit www.aanr.com.

Others initially join as members at large directly through the AANR office and visit several clubs to find the facility that suits them best. Often you will find a favorite or "home" club and then your membership can be easily transferred to that club.

Remember how much fun it was? Remember lemonade and summer? The sprinkler came on, the hose finished filling the backyard pool, or you pulled up to the ole swimming hole. Off came all your clothes and your worries! Your bare body felt the kiss of the air, the sun and the water. What pure innocent joy!

Membership in the American Association for Nude Recreation (AANR) is the natural choice to recapture that feeling again and again as you enjoy life clothes-free at one of over 270 clubs and resorts throughout North America and the Caribbean.

AANR clubs range from rustic camping retreats to upscale resorts that offer the very best in fine dining, spa services, and guest accommodations. Nonlanded clubs may organize events as simple as a backyard swim or barbecue get-together or as elaborate as trips to nude destinations in the Caribbean or Europe.

Why do so many enjoy it?

It's FUN! As any kid who breaks loose at bath time to go romping through the house can tell you, it's fun. With more and more places to enjoy nude recreation, plus tips on enhancing your nude experience at home, an AANR membership will help you enjoy the wholesome fun of being yourself.

It's MAGIC! When your clothes come off, so do many of the cues holding you to the work-a-day world. This is why so many people say they get the "condensed" relaxation of a week's worth of vacation in just a weekend at an AANR club or by participating in AANR nonlanded club events.

It's NATURAL! When you're nude, you're the way you were meant to be: completely natural. Being nude, especially in the great outdoors within appropriate settings, draws one inherently closer to nature.

It's SIMPLE! Traveling to clothes-free destinations means you can pack less and relax more. A towel, your favorite sunblock, and sunglasses are all you're likely to need most days.

It's an EQUALIZER! AANR's membership represents a cross section of society with people of all colors, religions, occupations, body types, age groups, and incomes. You'll be valued for who you are on the inside, not for physical size, shape, or condition.

Are you ready to take off with us?

With so many AANR clubs and resorts to choose from, chances are you're just a morning's drive or less away from a chance to enjoy life naturally.

Why do people choose nude recreation?

Nudists choose to enjoy their free time in the most natural way possible. To relax and be nude is to be totally free. Social class distinctions, often indicated by clothing, disappear in a nudist setting.

How prevalent is nude recreation?

Nude recreation is one of the fastest growing segments of the travel industry, according to articles in *Forbes* magazine and *USA Today*. A scientific poll conducted on behalf of AANR reported that over 50 million Americans have skinny-dipped in mixed company. Chances are you already know someone who enjoys nude recreation.

A cool breeze plays in the air. The rays of the sun lend a caressing touch to your entire body. You're experiencing total freedom—and the ultimate in relaxation. You're dressed in the suit that fits you best: your own skin.

Questions & Answers

How accessible are nudist parks/clubs?

Nudist clubs are warm, welcoming places that foster a wholesome, nurturing environment for members and their families. All clubs are expected to adhere to AANR's principles and standards, honed from over 75 years of experience.

Will I feel self-conscious?

Most first-timers adjust to social nudity in a matter of minutes and discover it's not nearly as big a deal as they thought it would be. Some feel self-conscious instead while clothed since they're likely to be the only ones not nude.

What are the benefits of nude recreation?

Self-esteem is enhanced in the nudist world, where body acceptance is the norm. Relaxation, stress relief, and positive body image are just a few of the reasons people choose the nudist lifestyle.
